

Basic Science

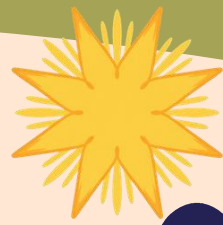

Basic 3 (Primary 3) | Lesson 1

Living and Non-Living
things

Welcome, young scientists!

Learning Objectives

- ✓ Define living things and non-living things
- ✓ List examples of living things (animals, plants, humans)
- ✓ State the characteristics that make things alive
- ✓ Identify non-living things around us
- ✓ Compare living and non-living things

Introduction

Everything around us is grouped into two kinds: living things and non-living things.

Living things include people, animals, and plants. Non-living things include rocks, chairs, books, and toys. In this lesson, we will learn how to tell the difference between them!

Introduction: Two Groups

1

Living Things
Things with LIFE!

Living Things
Things with LIFE!

Tree

Goat

Bird

Child

Flower

2

Non-Living Things
Things WITHOUT life!

Non-Living Things
Things WITHOUT life!

Chair

Book

Stone

School Bag

Water Bottle

What Are Living Things?

Living things have life. They can:

Grow – Get bigger over time

Breathe – Take in air

Eat – Need Food & Water grow
and To survive

Move – Walk, run, fly, or swim

Reproduce – Have babies/young ones
of their kinds

Respond – React to their surroundings

Die – their life comes to an end

Examples of Living Things

Living things include humans, animals, and plants. Here are some examples!

Human
(People grow, breathe,
and move!)

Dog
(Animals are living things
too!)

Tree
(Plants are also living
things!)

Human Beings are Living Things!

Humans are also living things! 🌞

- 👦 Boys and Girls
- 👨 Men and Women
- 👶 Babies and Infants

Things humans do:

- 🌱 Grow bigger every day
- 💧 Breathe air in and out
- 🍎 Eat food and drink water
- 🚶 Move from place to place
- 👶 Have children
- 😊 Feel and respond to things
- 💀 Die – their life comes to an end

Examples of Living Things (Animals)

1. DOMESTIC ANIMALS

Dog

Cat

Cow

Goat

Sheep

Horse

Chicken

Duck

Rabbit

Pig

2. WILD ANIMALS

Lion

Elephant

Giraffe

Zebra

Tiger

Bear

Rhino

Leopard

Deer

Fox

3. BIRDS & INSECTS

Parrot

Eagle

Pigeon

Sparrow

Owl

Butterfly

Ant

Bee

Ladybug

Grasshopper

4. FISH

Goldfish

Clownfish

Betta Fish

Angelfish

Guppy

Shark

Tuna

Tilapia

Catfish

Arowana

Examples of Living Things (Plants)

TREES

Mango Tree

Palm Tree

Coconut Tree

Guava Tree

CROPS PLANTS

Maize Plant

Rice Plant

Beans Plant

Sugarcane Plant

FLOWERS & VEGGIES PLANTS

FLOWERS PLANTS

Rose Plant

Sunflower Plant

Hibiscus Plant

VEGGIES PLANTS

Tomato Plant

Carrot Plant

Cabbage Plant

What Are Non-Living Things?

Non-living things do NOT have life.

They CANNOT:

- ✗ Grow by themselves
- ✗ Breathe
- ✗ Need food or water
- ✗ Move on their own
- ✗ Reproduce – Make babies
- ✗ Respond to their surroundings

Examples of Non-Living Things (Part 1)

FURNITURE

Chair

Table

Bed

Wardrobe

Sofa

Bookshelf

SCHOOL MATERIALS

Pencil

Pen

Notebook

School Bag

Ruler

Eraser

NATURAL OBJECTS

Rock

Stone

Sand

Water

Is water a non-living thing?

Yes, water is a **non-living thing**.

It does not grow, breathe, eat or reproduce.

Remember:

Non-living things are things that do not have life.

Non-Living Things (Part 2)

These things do NOT have life — they are made or found around us every day!

Bus

Lorry

Train

Car

Airplane

Fan

Television

Computer

Radio

Generator

Vehicles & Machines:

Car, Bus, Train,
Fan, Television,
Radio, Generator

Ball

Doll

Drum

Kite

Whistle

Toy Car

Toys & Sports:

Ball, Doll, Toy Car,
Kite, Whistle, Drum

Plate

Cup

Fork

Knife

Bucket

Broom

Household Items:

Cup, Plate, Spoon,
Bucket, Broom,
Pot, Shoes

Living vs Non-Living Things

LIVING THINGS

- ✓ Have life
- ✓ Grow bigger
- ✓ Breathe air
- ✓ Need food & water
- ✓ Can move
- ✓ Reproduce
- ✓ Respond to surroundings

NON-LIVING THINGS

- ✗ No life
- ✗ Do not grow
- ✗ Do not breathe
- ✗ Don't need food or water
- ✗ Cannot move on their own
- ✗ Cannot reproduce
- ✗ Do not respond

Let's Remember!

1

Living Things

Have life • Grow • Breathe •
Eat & drink • Move • Have
babies • Feel & respond

2

Examples

Humans, animals,
plants, and insects are
all living things!

3

Non-Living Things

No life • Don't grow • Don't
breathe • Don't eat • Don't
move • Don't reproduce.
E.g. Chair, book, stone, car

Thank You!

You Did Great!

Any questions? Keep exploring Living and Non-Living Things around you!

Remember: Living things have life —
Non-living things do not!
